PREFACE

The history of the Moshi Co-operative University (MoCU) dates way back to 5th January, 1963 when the then Co-operative College Moshi was established. The College's primary responsibility was training of human resource in the co-operative sector under the then Ministry of Co-operatives and Community Development. The College was subsequently established through the Co-operative College Act No. 32 (Repealed) of 1964 as an autonomous institution with its own Governing Board. In 2004, the Co-operative College Moshi was transformed into Moshi University College of Co-operative and Business Studies (MUCCoBS) as the Constituent University College of Sokoine University of Agriculture through the Government Declaration Order No. 22 of 2004. MoCU came into being as a result of transforming Moshi University College of Co-operative and Business Studies (MUCCoBS) to a full-fledged University in September, 2014. The University is governed by its own Charter, made under the Universities Act No. 7 of 2005 (Cap 346) of Tanzania laws. MoCU is located in Moshi Municipality, on the foot of Mount Kilimanjaro along Sokoine Road and has a teaching centre located in Shinyanga Region, namely Kizumbi Teaching Centre. In addition, the University operates 13 Regional Offices catering for all the regions in Tanzania Mainland.

Postgraduate studies are an important component of the University's activities. On completion of their bachelor degree, people feel the urge to climb one step further up the ladder of higher education. Often, they discover that the unmapped knowledge within the framework of that subject or that sub-specialisation is growing faster than originally conceived. After earning the Master degree, they crave for yet more discoveries. Subsequently, they embark on Ph.D degree programmes. This has made MoCU to focus on extending postgraduate training including postgraduate diploma, master's degree and Ph.D by coursework and dissertation, distance e-learning programmes and increase the diversity of programmes on offer. The Directorate's activities are tailored to feed into the University's training programmes development and practice improvements. This enables the University to design quality and deliver up-to-date and relevant postgraduate programmes that meet the needs of the society and the world at large. This guidelines after last review in 2017, has again been reviewed to improve efficiency and quality of postgraduate programmes offered by the university. This 4th edition has come up with several proposed amendment and transformations across the university Directorate of Research and postgraduate Studies (DRPS). It is expected therefore that the guidelines will be a useful reference document for prospective and continuing postgraduate students, supervisors, the University community and the public at large.
